AGRICULTURAL STATISTICS

(From the United States Census Report)

Maine has a total land area of 29,895 square miles, of which 9,844 square miles, or 32.9% are included in farms. The surface consists of two great slopes, the northern and the southern. The northern slope, comprising about one-third of the total area is drained by the St. John river and its tributaries, the southern slope by numerous streams which flow into the Atlantic. The broad, flat divide which separates the two slopes serves as a natural reservoir, most of the rivers of the state having their sources in the large lakes of this region. Some of the lakes have outlets on both sides of the watershed.

The surface of a large part of the state is rugged and broken. The soil of the river valleys is very productive, but in the mountainous regions and along the sea coast it is for the most part sterile. The Aroostook Valley, which comprises the largest area of fertile farming land in New England, has a deep, porous, yellow loam, especially adapted to the growing of fruits and vegetables. This section has developed remarkably during the last decade.

Census of Standish, 1905.

The population of the towns of Standish, Baldwin, Cornish, Limington, and Limerick has been arranged in families where that arrangement has been possible. In these families, in addition to the resident living members, the names of the non-resident members are included. It should be borne in mind that this plan does not include the names of all former residents of this town, as the names of the non-residents appear only when one or both of the parents are still living in the town. After the name of each non-resident will be found the present address, when such address has been given to us. Non-residents are indicated by the star (*).

When a daughter in a family has married, her name taken in marriage appears after her given name, in parenthesis, the name preceded by a small m thus: (m—).

Following the names of the population is the occupation, also the street and number, postoffice address, or rural free delivery route (see note following). To designate the occupation we have used the more common abbreviations and contractions, as follows: Farmer, far; Carpenter, car; railroad service R. R. ser; student, a member of an advanced institution of learning, stu; pupil, a member of a lower grade of schools (including all who have reached the age of five years)

pl; housework, ho; laborer, lab; physician, phy; clergyman, clerg; merchant, mer; teacher, tr; blacksmith, blk; clerk, cl; bookkeeper, bk kpr; lawyer, law; mechanic, mech, machinist, mach; engineer, eng; insurance, ins; maker, mkr; worker, wk; shoe shop work, s s wk; cotton or woolen mill operatives, mill op or mill wk; electrician, elec; painter, ptr; carriage work, car wk; travelling salesman, or commercial traveler, sales, or coml trav.

This census was taken expressly for this work during August and September of 1905, by F. E. Daggett of Topsham, Me.; E. R. Bassett of Brunswick, Me., and F. C. Goodyear, or Nangatuck, Conn.

NOTE:—When no address is expressed the name of the town is understood. Other postoffices are abbreviated thus: South Standish, So.; Sebago Lake, S. Lke.; West Buxton, W. Bux.; Steep Falls, S. Fls.; East Limington, E. Lim.; Bonny Eagle, B. Egl.; R. F. D. routes are designated by the No. of the route.
